Specifications

*Real driving range depends on a number of factors, including the accessories, variations in driving styles, weather conditions and vehicle load. The actual driving range of the vehicle may therefore deviate from the stated WLTP values.

7s

0-100 km/h

427km*

WLTP

60,48 kWh

battery

SPACIOUS

2.012 mm

WITH A SMALL FOOTPRINT

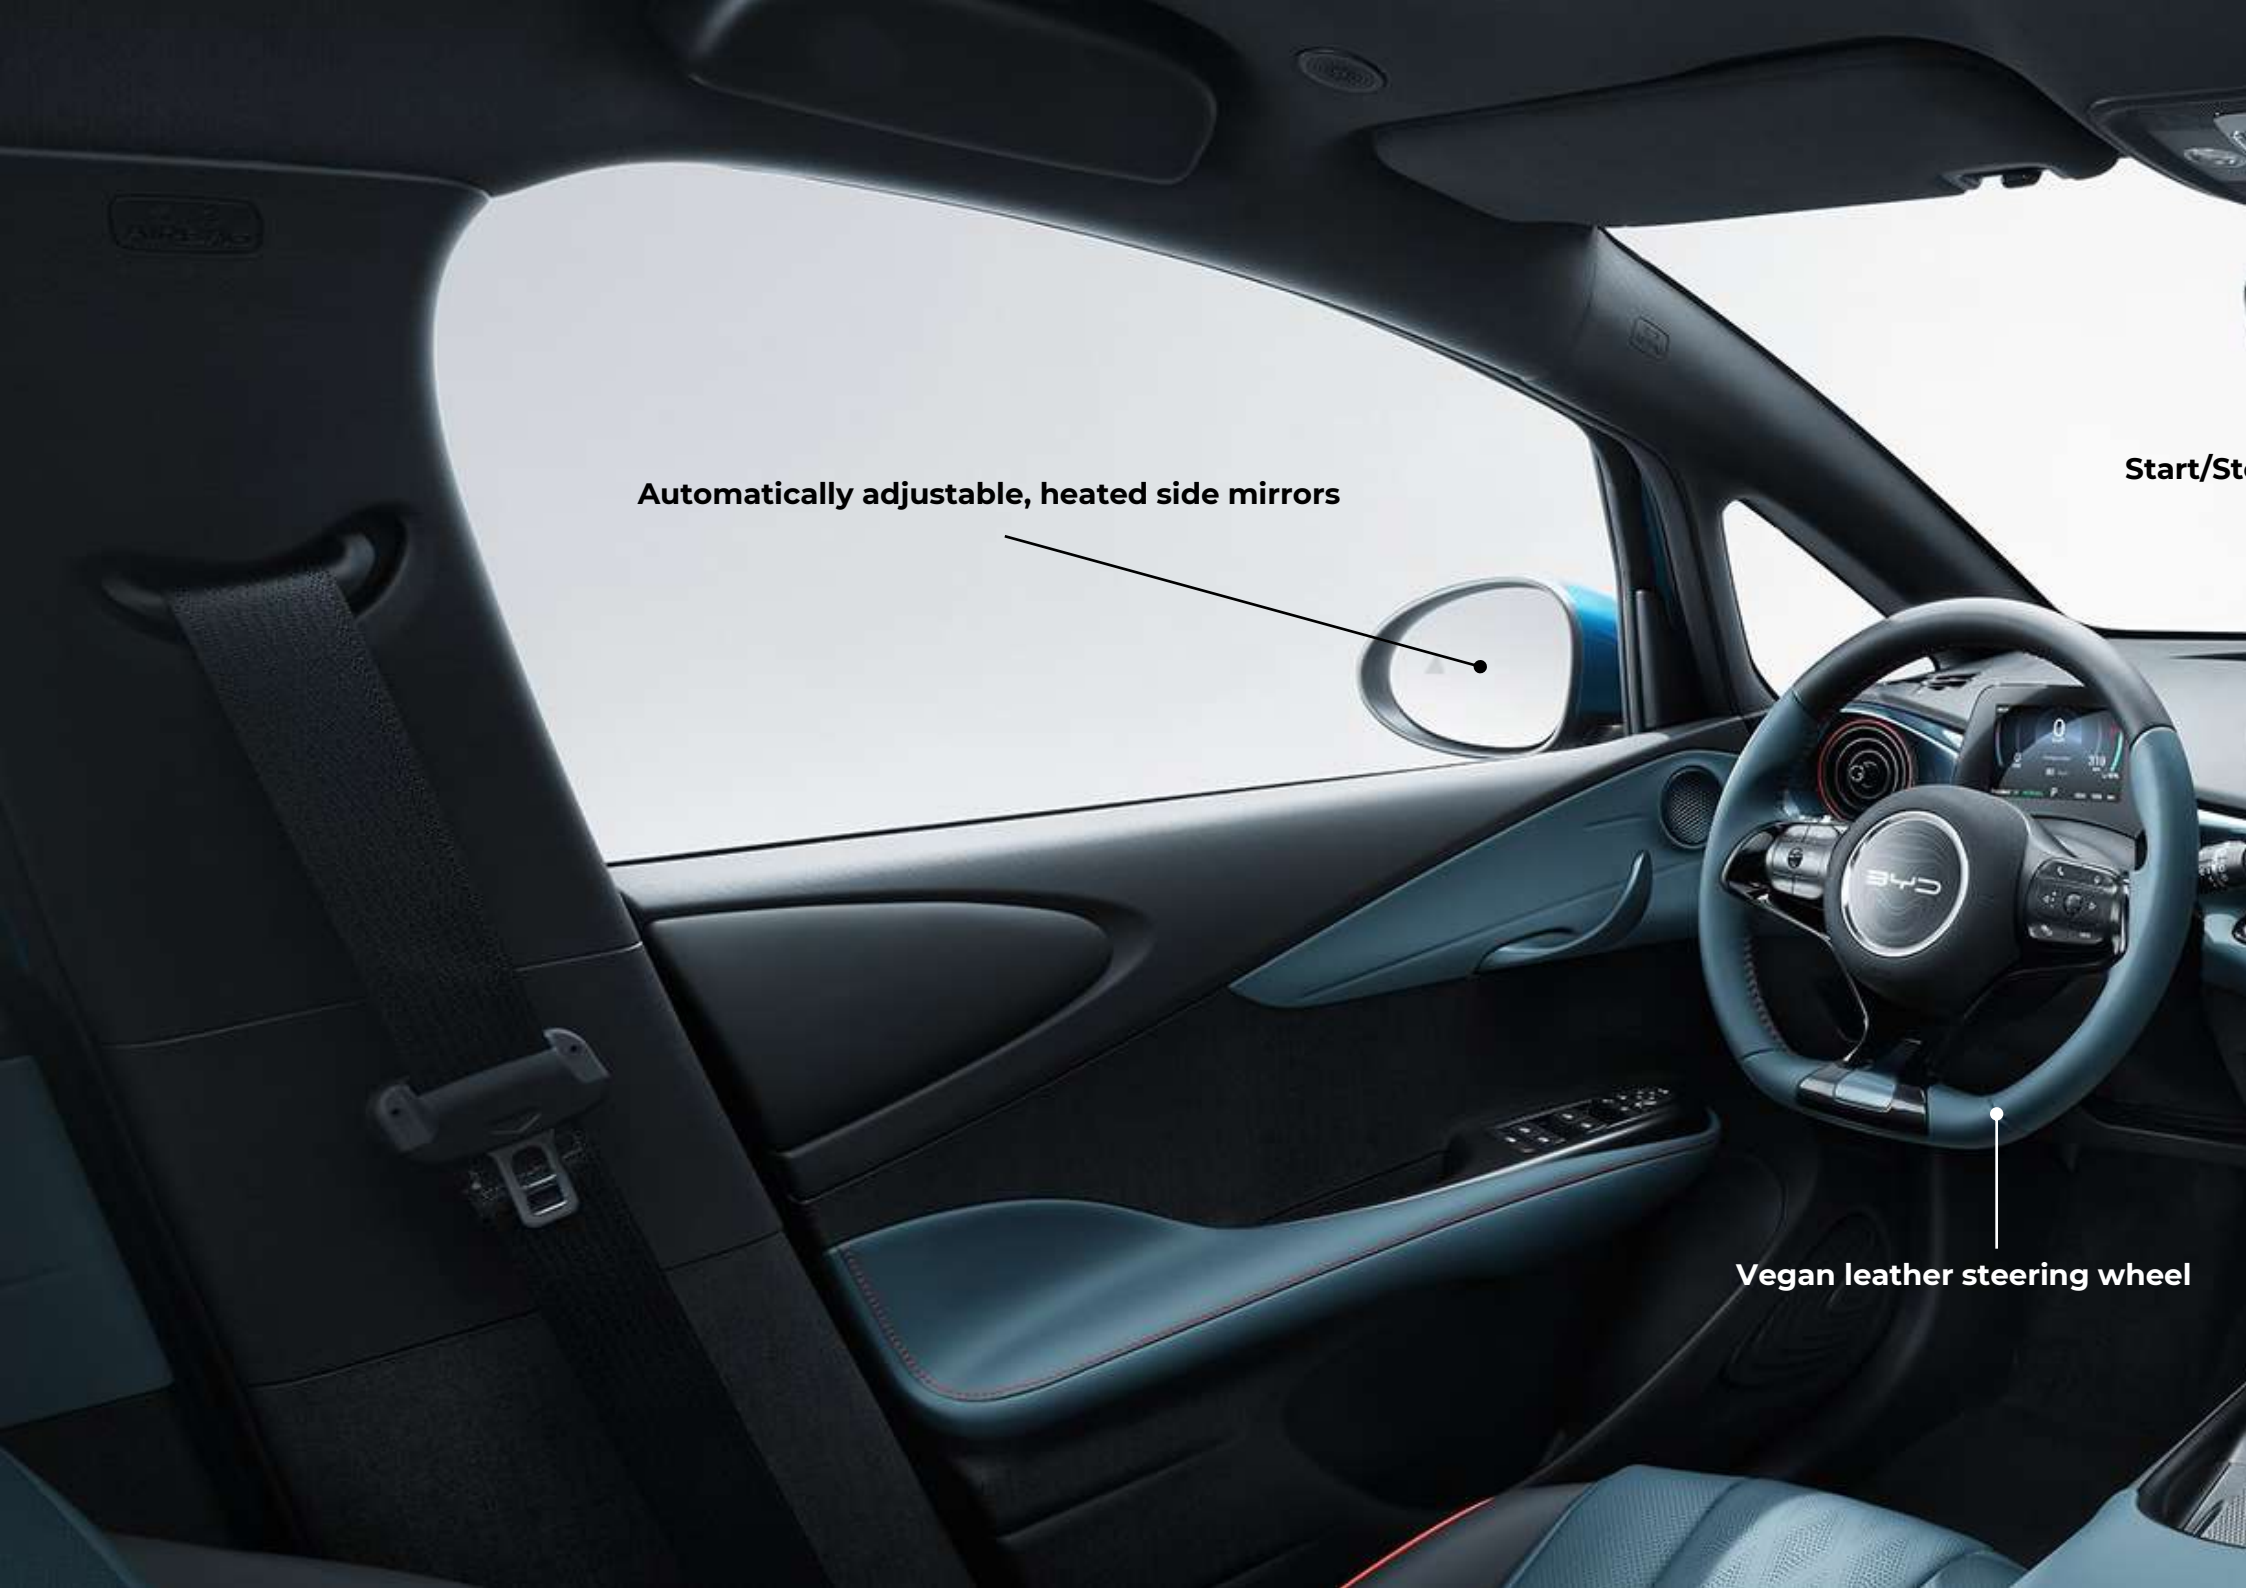

4.290 mm

Automatically adjustable, heated side mirrors

Start/St

Vegan leather steering wheel

push button

12,8-inch rotary touchscreen

PM2.5 air purification system

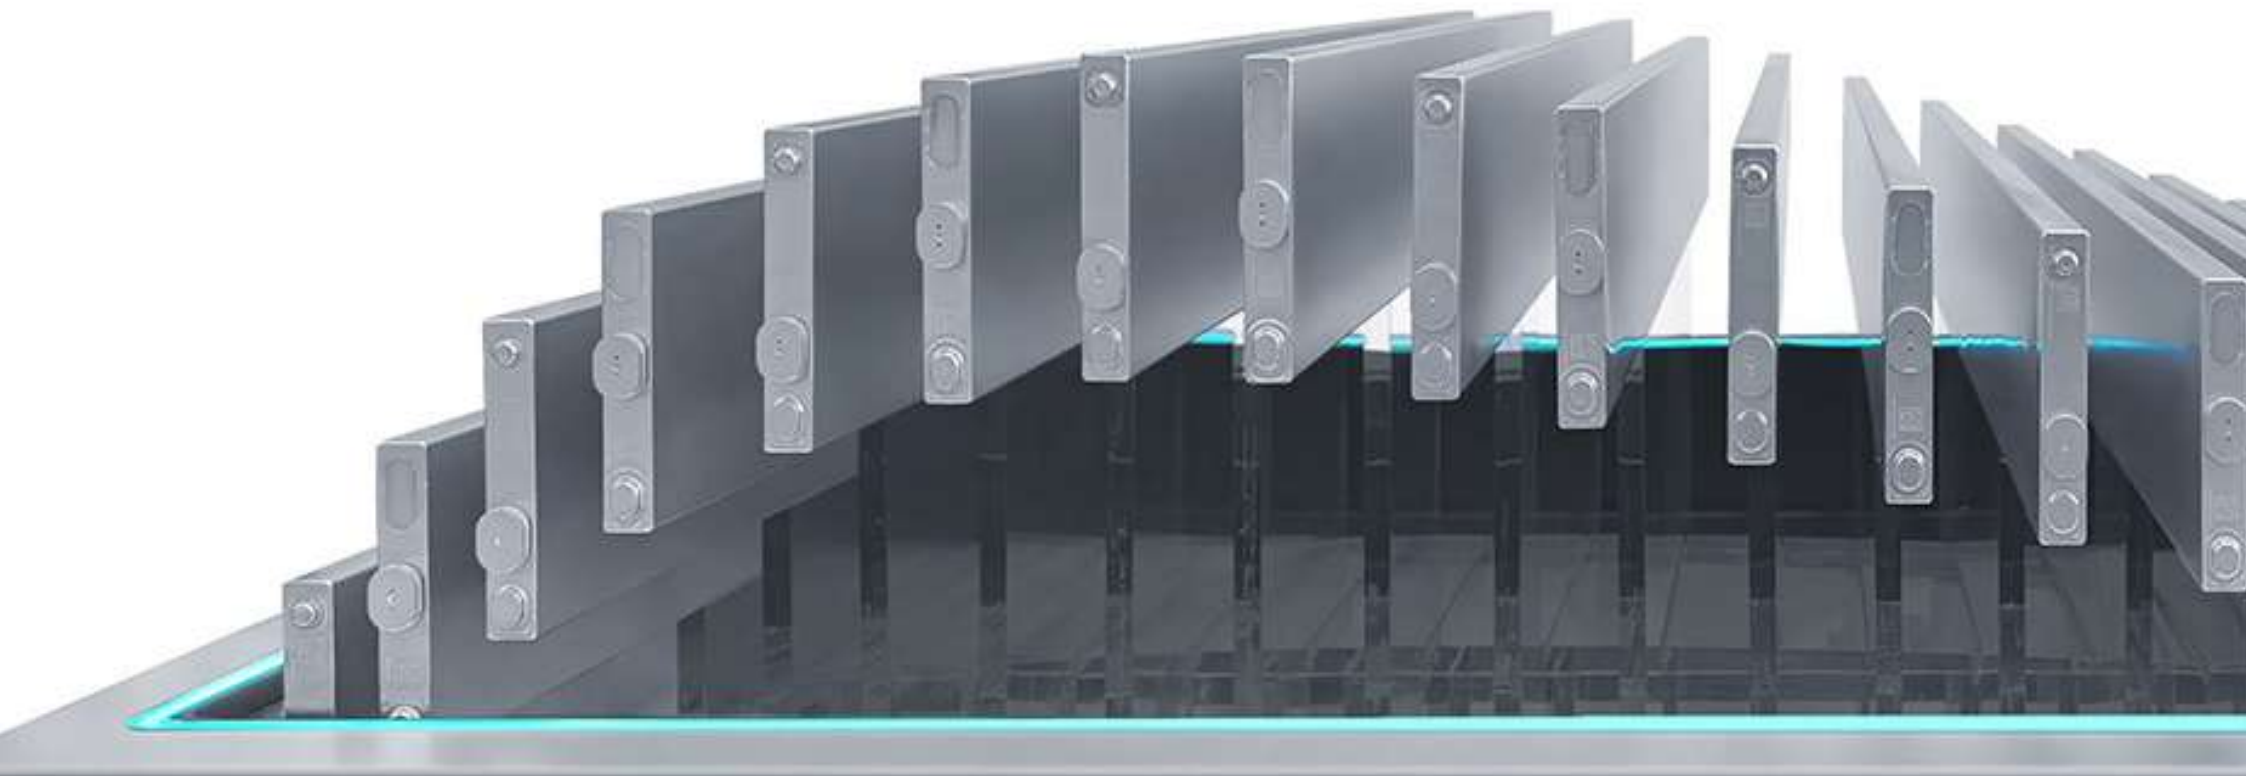

A close-up photograph of a car's interior door panel. The main surface is a black material with a fine, pebbled texture. A dark blue or teal plastic trim piece is visible on the left side, featuring a recessed handle. The lighting is soft, highlighting the textures and contours of the materials.

Ocean inspired design

BYD ultraveilige Blade Battery

BYD has been a pioneer in the battery industry for more than 26 years. Our latest ultra-safe Blade Battery has passed a series of the toughest tests to make it one of the world's safest batteries. During the rigorous nail penetration test, the blade battery emitted no smoke or fire, while the surface temperature reached only 30 to 60°C.

Much better than conventional battery technology.

Four distinct advantages of BYD's blade battery include a high starting temperature for exothermic reactions, slow heat release and low heat generation. It also increases battery pack space utilisation by more than 50% compared to conventional lithium iron phosphate block batteries.

True innovation and an industry first.

**Full power,
in different ways**

A close-up photograph of a blue car's charging port. A black CCS (Combined Charging System) connector is plugged into the port. The car's body is a vibrant blue, and the background is a plain, light grey. The text is overlaid on the right side of the image.

11kW AC charging

Anytime, anywhere, via a universal
CCS combo connection

88kW DC charging

30-80% in less than 29 minutes

**Rest well before
the next trip**

Technical Data

Drive

Drive	Front-Wheel Drive (FWD)
Energy	BYD Blade Battery
Battery (kWh)	60,48
Max. power(kW/pk)	150 / 204
Max. torque (Nm)	310
AC-charging (kW)	11
DC-charging (kW)	88
Time for fast charging (min)	29 (30% → 80%)
CO ₂ emissions	0

Remmen

Type	Geventileerde remschijf
Remsysteem	Electrical Park Brake (EPB) Automatic Vehicle Hold (AVH)

Payload

Luggage compartment volume	345/1310
----------------------------	----------

Weights and capacities

Number of seats	5
Kerb weight(kg)	1658
Gross vehicle weight (kg)	2068
Max. front axle load (kg)	1039
Max. rear axle load (kg)	1090

Performance

WLTP range combined (km)	427
WLTP range city (km)	565
Top speed (km/h)	160
Acceleration 0-100km/h (s)	7
Efficiency (kWh/100km)	15,9
